child and family
support crisis center!

Social project «Let it happen»

For support of the Allaži children and family crisis center to provide financial donations, arrange necessary things and organize celebration "Day of Joy"!

Project time: 1.09.- 21.10.2023.

We invite you to support!

Since 2001 the **Allaži child and family support crisis center** has been admitting and providing **overnight accommodation** for minors who are brought by the police **after domestic violence**.

Clean beds and warm food **await them**, the support of a psychologist gives them a sense of security, **as in a home where they are cared for and loved**.

State support is enough for basic needs, to provide children with social rehabilitation, to feed and to give them a place to sleep. Unfortunately, **the state does not allocate additional funds** for expenses related to economic activity, house maintenance, restoration of damaged items, children's developmental toys and necessary outdoor activities, **therefore a public assistance is requested**.

«I will return home and make myself a clean corner in the room with a white sheet and a pillow.» /Zane, 11 years

«The cruelty of adults sometimes knows no bounds and the living conditions in which children live are heartbreaking. This little girl's words have remained in my memory very deeply.

With us, children see a clean bed, shower, toilet, tasty food, they feel that they have value and are taken care of. These are seemingly simple things, but we have had children come to us who have never seen anything like this.

For me, it is a mission and a responsibility. Seeing what children in disadvantaged families face, I can't help but do something. I believe that the children remember the example, that it can be different from his home, that he is a value and that he is loved.»

/Aelita Ziemele,
Head of the Allaži children and family support center
